Hans--I have attended this Symposium in past years, and I am interested in attending Session 2 and all day Wednesday of this year's Symposium. (This is a good way for me to enhance my technical knowledge without travel.) --Robin

Please let me know who would be interested to attend. The number is limited.

Best regards

Hans

Subject: Annual Symposium on Fundamental Science (4)

Dear Colleagues,

*We wish to extend to you and other individuals recommended by you from your directorate, department, program, or project to attend this year's PM USA Symposium on Fundamental Science. The Symposium will be held at **Virginia Crossing on November 12th through 14th**. Please confirm your attendance and those recommended by you via an email to Betty Mitchell no later than **12:00Noon Monday, November 4th**. In your email, please specify the specific days and events you will be attending.*

We have a limited space to accommodate those who are attending this symposium; thus, we need to work on a first come first serve basis. We already have about 50 participants from outside PM USA including those from our funded research contracts and PMI, and another 50 participants from PM USA who have been involved in our fundamental research studies.

Best Regards,
Mohammad
